### **WELCOME YOU TO ORIENTEERING IN KINGS PARK, BOSCOMBE**

Orienteering is a Sport for All: all abilities and all ages: children, families, groups of friends, wheelchair users, keen walkers, runners and international athletes.

Orienteering takes place in parks, urban areas, forests and around towns and cities.

This leaflet introduces you to orienteering in Kings Park. You can start with an easy course, and then try one a bit more challenging, maybe returning another day to have a go at another course.

### **What to do next**

The aim of the sport is to navigate your chosen course from the Start to the Finish and to visit all the control points on the way. The Start is shown as a red triangle, and the finish as two red circles. On this map, the Start and Finish are in the same place.

Each control point has a red circle on the map and a number alongside it. When you get there, you will find a post at the centre point of the circle on your map which has a red and white marker. On the post will be a letter.

Copy this letter into the correct box on your map, but make sure you really are at the correct control point. Look around at the features nearby – do these match the features shown on the map? If not, have you found the wrong control point? Go back to the previous control, and try again.

When you have finished, compare the letters you have copied down with the list on the Answers Sheet. If they all agree in the correct order, then you have completed the course correctly.

Once you feel confident with the course or courses you have completed, you can try going around the courses in reverse, or perhaps try to visit all the controls in the

shortest possible time. Why not try a relay with your friends or family; select a course and each of you take it in turns to run the course to see who is fastest.

### **Control Descriptions**

In orienteering, every control point is on a recognisable feature, so that it can be described.
